Item 2 Education Background and Business Experience

Marc Jeffrey Hertzberg was born in 1967. Mr. Hertzberg graduated from Lehigh University in 1989 with a Bachelor of Science degree in Accounting and from the University of Maryland, School of Law in 1995, with a Juris Doctorate degree. Mr. Hertzberg is a Wealth Advisor and the firm’s current President. He has been the Chief Compliance Officer of WBH Advisory, Inc. since January 1999.

Mr. Hertzberg has been a CFA[®] Charterholder since 2004. CFA[®] designates an international professional certificate that is offered by the CFA Institute. The Chartered Financial Analyst[®] (CFA[®]) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute — the largest global association of investment professionals.

There are currently more than 200,000 CFA[®] charter holders working in 170 countries. To earn the CFA[®] charter, candidates must: (1) pass three sequential, six-hour examinations; (2) have at least four years of qualified professional investment experience; (3) join CFA Institute as

members; and (4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

High Ethical Standards

The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA[®] Charterholders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

Global Recognition

Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA[®] charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA[®] Charterholders — often making the charter a prerequisite for employment. Additionally, regulatory bodies in 38 countries/territories recognize the CFA[®] charter as a proxy for meeting certain licensing requirements, and more than 466 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

Comprehensive and Current Knowledge

The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning.

The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.

Mr. Hertzberg has held the designation of Certified Public Accountant (“CPA”) since 1990. CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two-year period or 120 hours over a three-year period). Additionally, all American Institute of Certified Public

Accountants (AICPA) members are required to follow a rigorous *Code of Professional Conduct* which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's *Code of Professional Conduct* within their state accountancy laws or have created their own. In addition to the *Code of Professional Conduct*, AICPA members who provide personal financial planning services are required to follow the *Statement on Standards in Personal Financial Planning Services* (SSPFPS).

Mr. Hertzberg has been a Certified Exit Planning Advisor (CEPA) since 2022. The Certified Exit Planning Advisor (CEPA) Program is taught by nationally recognized experts in the field of exit planning; this 5-day executive MBA style program and includes a final examination. The CEPA Program offers professionals an innovative learning experience, performance-enhancing resources, and the strategic tools to help them advance their exit planning practice, including value enhancement. The CEPA Program process integrates exit strategy into business, personal and financial goals of the business owner. The process consists of three major components: 1) Maximizing Business Value or Value Enhancement, 2) Personal Financial Planning, and 3) Life After Business Planning. The process teaches that exit strategy is business strategy. It is about building, harvesting and preserving wealth and integrating best business practices into daily operations. The Methodology focuses on enterprise value and is a revenue producing model for professional advisors that is justifiable with growth of overall enterprise value. Certification process elevates professional standards, enhances individual performance and differentiates CEPA professionals from those who do not have the knowledge needed to provide high quality exit planning services to business owners. Continuing Education Credits are offered for six major professionals associations, including CPA and the CFP® mark, making the CEPA Program the most widely accepted and endorsed professional exit planning program in the world.
